# Slide 1 The Top Ten Charitable Planning Ideas for the Current Environment 1 Kathryn W. Miree & Associates, Inc. October 10, 2012 Slide 2 The Charitable Environment Slide 3 The Current Planning Environment 3 Investment market have fluctuated dramatically over the last decade and interest rates are at historic lows. We are in a low tax rate environment - but what is ahead of us? Congress and the IRS have leveled significant attention on charitable gift transactions and created new rules. • The press has focused on the charitable industry's cautionary tales.

| 2006                    | 16.29%  | 13.62%    | 9.52%   |
| 2007                    | 6.4%    | 3.5%      | 9.8%    |
| 2008                    | -33.8%  | -38.5%    | -40.5%  |
| 2009                    | 18.8%   | 23.5%     | 43.9%   |
| 2010                    | 11.0%   | 12.8%     | 16.9%   |
| 2011                    | 5-5%    | 0%        | -1.8%   |

### Slide 6

### The Madoff Chill 6

- In addition to downturns in the securities markets and real estate markets, there are numerous instances of fraud
- Madoff Ponzi scheme topped the list –losses of more than \$50 billion
- Losses were experienced not only by individuals and corporations, but many charities and foundations many were sophisticated investors

  Fiduciary liability?

Tax Benefits in Flux – Estate and Gift Tax Rates

### 7 • The 2001 Tax Act – EGTRRA – created dramatic changes

- o Uncoupled the estate and gift tax exemption amount
  Froze gift tax exclusion amount at \$1 million
  Raised estate tax exclusion to \$3.5 million then no tax
  in 2010 then back to \$1 million in 2011
- Marginal estate and gift tax rates decreased over the period to 45% -
- 2010 Free to die!
- Now, \$5 Million Exclusion Amount, Estate and Gift rates back together But what next?

### Slide 8

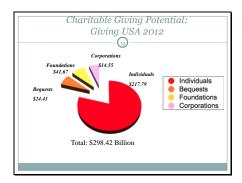

### Tax Rates Are a Moving Target \$675,000 55% 2002 \$1,000,000 \$1,000,000 50% \$1,500,000 2004 48% \$1,500,000 \$1,500,000 \$2,000,000 \$2,000,000 \$2,000,000 No Tax/\$5,000,000 45% 46% 45% 45% 45% 0%/35% 2005 2006 2007 2008 2009 2010 2011 \$5,000,000 35%

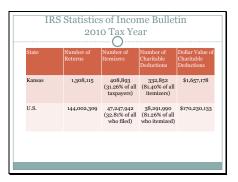

### Slide 9

How Far Does the Estate Tax Reach?

- 0 • Fall 2005 Statistics of Income:
- 4.5% of all decedents filed returns 2.16% were required to pay tax
- See table showing population affected by estate tax

|          |  |   |      |      |

### Slide 44

### #4: Closely Held C Corporation to CRT

- ... 46 Allows corporation to purchase stock as treasury
- Maintains roughly same ownership
- Key Points:
- if structured property, no constructive dividend
   if interest is less than majority, IRS may require minority discount
- Offer must be made to all stockholders

### Slide 47

#5 and #6 – Charitable Gifts that Fund Retirement

### • Gift annuities attractive to many donors

- Easy to explain and for donors to understand
   Provides donor with guaranteed, specific income
   Transaction is part gift and generates charitable income tax deduction
   Beneficiary capital gain treatment
- o Easy to create

| O   |            |

- Create series of deferred charitable gift annuities with flexible start dates
- $\bullet$  Letter ruling 9743054 allows deferring start date
- $\bullet$  Deduction is based on anticipated start date
- The later the payment begins, the larger the payment
- Good for younger donors

### Slide 53

#7: The Value of Non-Grantor Charitable
Lead Trusts in This Environment
(s)

• Two types of charitable lead trusts for tax purposes:
• Grantor charitable lead trust
• Non-grantor charitable lead trust
• Non-grantor charitable lead trust
• Difficult to be prescriptive – be careful with the math
• Very rare to see grantor clts
• More common – but still rare – to see non-grantor clts
• Special opportunities
• Assets with depressed values
• Shark fin trusts – variable rate with the major charitable payout at the end of the term

| The Value of Charitable Lead Trusts  The low interest rate environment increases the value of the charitable deduction.  |                                  |                            |                              |  |  |  |
|--|----------------------------------|----------------------------|------------------------------|--|--|--|
|  | 20-year term, 5%<br>payout       | Gift tax deduct 2%<br>CFMR | Gift tax deduct<br>5.8% CFMR |  |  |  |
|  | Charitable Lead<br>Annuity Trust | \$866,950                  | \$582,920                    |  |  |  |
|  | Charitable Lead<br>Unitrust      | \$636,270                  | \$620,250                    |  |  |  |
| Defective trusts – create a gift tax deduction and   |                                  |                            |                              |  |  |  |
| income tax deduction with a non-reversionary grantor charitable lead trust by retaining a grantor property – such as the power to reacquire trust property and substitute like property. |                                  |                            |                              |  |  |  |

|  |    |

### Final Thoughts

- There are still many opportunities for donors and charities in the current market.

  The key to effective charitable planning is to focus on the donor's goals.

  Incorporate charitable planning with personal planning for more effect

  Be sensitive to legislative changes
